AYES: Peterson, Bixby, Mantini, Delgleize, Ryan

FINDINGS FOR PROJECTS EXEMPT FROM CEQA:

The Planning Commission finds that the project will not have any significant effect on the environment and is exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to City Council Resolution No. 4501, Class 20, which supplements CEQA because the request is a minor amendment to a zoning ordinance that does not change the development standards intensity or density.

FINDINGS FOR APPROVAL - ZONING TEXT AMENDMENT NO. 12-02:

1. Zoning Text Amendment (ZTA) No. 12-02 to: 1) amend Chapter 254 (Dedications and Reservations) of the HBZSO to delete the site-specific-appraisal approach for determining park in lieu fees for residential projects that require tentative maps and replace it with standard citywide fees and incorporate other related changes; and 2) delete Section 230.20 of the HBZSO pertaining to park fees for projects not requiring a tentative map is consistent with the goals, objectives, policies, general land uses and programs specified in the General Plan including:

A. Land Use Element

Goal LU 2: Ensure that development is adequately served by transportation infrastructure, utility infrastructure, and public services.

Objective LU 14.1: Preserve and acquire open spaces for the City's existing and future residents that provide, maintain, and protect significant environmental resources, recreational opportunities, and visual relief from development.

Policy LU 14.1.2: Permit the acquisition and/or dedication of lands for new open space purposes in any land use zone where they complement and are compatible with adjacent land uses and development, contingent on City review and approval.

Policy LU 14.1.4: Provide for the acquisition and development of the City's parks in accordance with the Parks and Recreation Element of the General Plan.

B. Recreation and Community Services Element

Goal RCS 2: Provide adequately sized and located active and passive parklands to meet the recreational needs of existing and future residents, and to preserve natural resources within the City of Huntington Beach and its sphere of influence.

Policy RCS 2.1.1: Maintain the current park per capita ratio of 5.0 acres per 1,000 persons, which includes the beach in the calculation.

Policy RCS 8.1.5: Update, on a periodic basis, the park in lieu fee assessed to all new development.

C. Environmental Resources/Conservation Element

Goal ERC 1: Improve and enhance the overall aesthetic value and appearance of the City of Huntington Beach through the provision and maintenance of local public and private open space.

The revised ordinance will allow the City to collect park in lieu fees as necessary to acquire and/or improve park and recreational facilities throughout the City to meet the needs of residents consistent with the General Plan and the October 2011 Master Facilities Plan and Development Impact Fee (DIF) Calculation and Nexus Report (Amended April 2012).

2. ZTA No. 12-02 does not affect a general land use provision and compatibility with the uses authorized in, and the standards prescribed for, the zoning district for which it is proposed. ZTA No. 12-02 will revise Chapter 254 and delete Section 230.20 of the HBZSO. It will not affect the zoning of any property or the allowed uses and development standards of any zoning district.
3. A community need is demonstrated for the change proposed. ZTA No. 12-02 will reflect the City's desired approach for determining park in lieu fees for new development consistent with the October 2011 Master Facilities Plan and DIF Calculation and Nexus Report (Amended April 2012) and in consideration of maximizing the goals, objectives, and policies of the General Plan. It will result in equitable standard citywide park fees for rental and for-sale residential units. It will help developers determine development costs earlier in the process.

4. Its adoption will be in conformity with public convenience, general welfare and good zoning practice because ZTA No. 12-02 will allow the city to provide sufficient park and recreational facilities for its residents.

Commissioner Delgleize recused herself on Item No. B-2 due to a possible conflict of interest and left the room.

Greg James, architect, spoke in support of Item No. B-2, noting the additional landscaping and raised sidewalk to create a buffer between vehicular and pedestrian traffic.

Paul Strain, resident, spoke in opposition to Item No. B-2, citing potential impacts to aesthetics, noise, and reduced property values.

FINDING FOR DENIAL – MITIGATED NEGATIVE DECLARATION NO. 11-007:

The potential Impacts to the public view corridor (vacated 3rd Street) between Pier Colony and the proposed Pierside Pavilion expansion was not properly analyzed and addressed in the Mitigated Negative Declaration (MND). In addition, the MND did not include mitigation measures to address the potential impacts to views by the proposed project.

FINDING FOR DENIAL – COASTAL DEVELOPMENT PERMIT NO. 11-012/CONDITIONAL USE PERMIT NO. 11-021/ENTITLEMENT PLAN AMENDMENT NO. 11-007/VARIANCE NO. 11-005:

The proposed project will impact the public view corridor (vacated 3rd Street) between Pier Colony and Pierside Pavilion because it was not properly analyzed and mitigated by the MND, is inconsistent with the General Plan's Coastal Element policies to protect visual resources and is inconsistent with the requirements for street vacations identified in the Downtown Specific Plan. The proposed project does not adequately address the requirements for street vacations, does not protect visual coastal resources and does not address the environmental impacts to existing views and the view corridor established by the vacation of 3rd Street.
